

Identity Theft Protection

Last year, identity fraud affected 16.7 million U.S. Consumers.*

Everybody knows that identity theft is a serious and escalating problem for employers and employees that can result in huge financial losses, lost productivity at work and extreme personal stress.

As a result, identity theft protection services have quickly become a highly valued employee benefit.

The Michigan Chamber of Commerce has partnered with **IdentityForce**, the industry-leading provider of identity theft protection services, to deliver the highest-quality and most cost-effective solution for employers. Don't miss this opportunity to help employees protect themselves from becoming victims of identity theft.

IdentityForce delivers ongoing monitoring, rapid alerts, and recovery services to help protect against ID theft. You can rest easy with their 40 years of experience and proven identity, privacy, and credit security solutions.
